### Facility AUDIT FINDINGS

#### Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
<b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	10
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
<b>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b>	0
<b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b>	<input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.  <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.

<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>During informal interviews, there were no residents that were limited English proficient. Residents that are limited English proficient would have difficulty participating in a therapeutic community.</p>
<p><b>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>3</p>

<b>SITE REVIEW AND DOCUMENTATION SAMPLING</b>	
<b>Site Review</b>	
<p>PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.</p>	
<b>84. Did you have access to all areas of the facility?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No

**Was the site review an active, inquiring process that included the following:**

<b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>88. Informal conversations with staff during the site review (encouraged, not required)?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b>	The auditor left message for the Pittsburgh Police, but there was no return call.
<b>Documentation Sampling</b>	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
<b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b>	<input checked="" type="radio"/> Yes <input type="radio"/> No

**91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).**

The auditor requested rosters of staff and residents prior to onsite audit, the PREA coordinator uploaded requested files. The auditor reviewed files prior to onsite audit.

## **SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

### **Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

**92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	<b># of sexual abuse allegations</b>	<b># of criminal investigations</b>	<b># of administrative investigations</b>	<b># of allegations that had both criminal and administrative investigations</b>

**Sexual Abuse Investigation Outcomes**

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

The Academy Schools has designated an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards at the New Outlook Academy. During the interview with the PREA coordinator, it was stated that there was enough time to manage all the PREA responsibilities. Located on the New Outlook Organizational Chart was the position of the CARF/PREA/ Compliance Coordinator. The title was positioned on the second tier of the organizational chart directly below the position of the Executive Director.

If an issue of PREA compliance is identified, the PREA coordinator shared there would be a collaborative effort with the executive director to implement refresher training at the facility.

Review of the CARF/PREA/Compliance Coordinator Responsibilities, the auditor found listed the specifics of the PREA coordinator's responsibilities which included:

- Review client and personnel records to ensure PREA compliance.
- Review all PREA related incidents within 30 days of receipt of the conclusion of the investigation. This is aligned with the responsibility of a member of the incident review team.
- On an annual basis, meet with the executive director to review all incidents from the prior year, discuss the current staffing plan, review the PREA policy, discuss any barriers needing addressed, and discuss video monitoring technology. Currently, New Outlook Academy does not have video monitoring technology.

The agency substantially meets compliance in this provision.

115.311(c):

Findings (by Provision):

115.313 (a):

The Academy Schools PREA Policy IV.A.1-7 cites the Academy staffing plan and monitoring plan for each of its facilities considers:

1. Generally accepted professional standards for juvenile justice practices.
2. Composition of the different populations within its facilities.
3. Number and placement of supervisory staff.
4. Programs occurring on each shift.
5. Relevant laws, regulations, and standards.
6. Prevalence of substantiated and unsubstantiated incidents of sexual abuse.
7. Other relevant factors.

Additionally, the policy references the minimum staff to youth ratios shall be 1:8 during waking hours and 1:16 during sleeping hours, and any deviations from the plan due to exigent circumstances shall be documented. The facility did not provide an actual staffing plan, but references to ratios in the PREA policy.

During onsite review of the facility, the facility far exceeded the required ratios. The agency provided in the PAQ and Supplemental files the staff schedule and daily shift report. Review of the staff schedule and daily shift report further confirmed that the facility maintains staff and youth ratios.

According to the superintendent, adequate staffing levels are to protect residents against sexual abuse. Video monitoring is not a part of the staffing plan or utilized at New Outlook Academy, the facility operates with a direct supervision practice. The adherence to staff ratios is documented via daily email correspondence and daily log.

Submitted on the PAQ, the average daily number of residents since the last audit was 45, and the staffing ratios was predicated on 60 residents. On the first day of the onsite audit, there were 60 residents.

The agency does reference the criteria of a staffing plan in the agency PREA policy, but there was no actual documentation of the staffing plan.

Does not substantially meet compliance with the provision.

115.313 (b):

According to the Academy Schools PREA Policy IV.A., the agency would comply with the staffing plan except in exigent circumstances, and deviations from the staffing plan would be documented. Procedure 604 Coverage and Unforeseen Circumstances Procedure outlines procedures to provide the appropriate coverage during unforeseen circumstances. The procedure applies to all employees at The Academy. It requires that staff members remain on shift until sufficient number of staff members arrive for the next shift to cover the student population.

According to the superintendent, there were no instances of exigent circumstances during the prior 12 months. Supervisors come in when needed to meet requirements. Also, the facility provides company housing. The houses are located next door to the facility. If necessary, these employees are readily available to maintain ratios.

Adherence to staff to child ratios is documented daily via the daily log and via email communication.

The agency is substantially compliant with this provision.

115.313 (c)

The Academy Schools is obligated by the Commonwealth of Pennsylvania. The agency follows the Pennsylvania Code 3800.55 Childcare worker that requires the ratio of 1:8 staff to child ratio during waking hours and 1:16 staff to child ratio during sleeping hours.

The Academy Schools PREA Policy IV.A. aligns with the Commonwealth of Pennsylvania's code for staff to child ratio.

According to the superintendent, there have been no circumstances that the staff to child ratio has not been maintained. It was stated that the facility maintains ratios of 1:8 during waking hours and 1:16 during sleeping hours. Further, it was confirmed that the facility is required to maintain ratios in accordance with state mandates. According to information submitted to the PAQ, there were no deviations of staff to child ratios during waking hours or sleeping hours in the prior 12 months. During site review, the facility has shown compliance with the required staff to child ratios.

The facility is substantially compliant with this provision.

115.313 (d)

Provided in the PAQ were the meeting minutes for the PREA Annual Review for 2023. The annual review participants were the executive director and the PREA coordinator. The auditor requested the annual reviews for calendar year 2022 and calendar year 2021. Both years were provided in the supplemental file of the OAS. According to the minutes, the reviews considered whether adjustments were needed to the staffing plan, prevailing staffing patterns, deployment of monitoring technology (direct supervision only), and the allocation of resources to commit to the staffing plan to ensure compliance.

The facility is substantially compliant with this provision.

115.313 (e)

This provision is not applicable to New Outlook Academy due to the facility being a non-secure facility. The facility does make effort to adhere to the provision. The policy outlines the implementation of the practice of having administrative staff conduct and document unannounced rounds (all shifts) to identify and deter staff

sexual abuse and sexual harassments. Additionally, it prohibits staff from alerting other staff members that supervisory rounds are taking place. The auditor requested specific dates from the facility. In the PAQ, New Outlook Academy provided a document of the unannounced PREA rounds. The unannounced rounds are documented electronically. Some of the dates requested by the auditor did not have associated unannounced PREA rounds. Based on the document provided, there is an infrequency with unannounced PREA rounds. The rounds that were completed appear to occur on all shifts. The PREA unannounced rounds that were conducted appear to be completed by intermediate level to higher-level staff. Due to lack of video monitoring, the auditor was unable to confirm the method of conducting unannounced PREA rounds.

The facility is substantially compliant in this provision.

The Academy Schools has a PREA Policy that documents the components of a staffing plan, but there was not a documented staffing plan. Within the policy, the agency does require deviation from the staffing plan only except during exigent circumstances and the occasion requires being documented. The agency is obligated by the Commonwealth's code pertaining to ratios of staff to child. Evidence was provided of an annual review of staffing by the executive director and the PREA coordinator. New Outlook Academy, being a non-secured facility, is not required to conduct unannounced PREA rounds, but the facility does make an effort to adhere to the provision.

Based on this analysis, the agency does not substantially meet compliance for this standard and corrective action is needed at this time.

Corrective Action:

1. The agency shall develop, implement, and document a staffing plan that provides adequate levels of staffing, and, where applicable, video monitoring to protect residents against sexual abuse.

Recommendation:

1. Increase frequency of PREA unannounced rounds to daily on all shifts.
2. Include facility head in annual review.

**Verification of Corrective Action since the onsite PREA audit:**

In response to the corrective action, the facility submitted documentation via OAS on 7/1/2024 and 7/5/2024. The following documents were submitted:

- New Outlook Academy Staffing Plan 2024
- Summary of actions taken to comply with PREA Standard 115.313

**Corrective Action Intent:**

The intent of this corrective action was to ensure that in accordance with the PREA

	<p>mandates New Outlook Academy developed, implemented, and documented an enhanced staffing plan to continue to ensure adequate levels of staffing to protect residents against sexual abuse and sexual harassment. Based on review of the information received, the auditor finds the facility is substantially compliant with this standard</p>

Documented in the PAQ, there were no cross-gender strip or cross-gender cavity searches.</p> <p>During interviews with 8 random and 8 targeted residents, there were no instances of cross-gender strip or cross-gender cavity searches reported to the auditor. The 12 random staff confirmed there were no cross-gender pat down strip or cross gender cavity searches conducted.</p>

The facility substantially meets compliance with this provision.

115.315 (b):

Found in the Community Specialists Corporation Search and Seizure Policy, there is language that does not permit cross-gender pat-down searches of residents. Specifically, the policy states a visual body scan will be conducted by two staff members who must be the same gender as the student.

In accordance with The Academy Schools PREA Policy III.C., The following acts are prohibited cross-gender strip searches and pat searches.

According to information provided in the PAQ, there were no cross-gender pat down searches or cross-gender pat down searches that were due to exigent circumstances.

During interviews with 8 random and 8 targeted residents, there were no instances of cross-gender pat down searches reported to the auditor. The 12 random staff confirmed there were no cross-gender pat down searches conducted.

The facility substantially meets compliance with this provision.

115.315 (c)

New Outlook Academy requires that all searches require documentation. In the Community Specialists Corporation Search and Seizure Policy, a Search & Seizure Incident Report will be written by the supervisor. The supervisor who approved the search will submit the Search & Seizure Incident Report to the executive administrative assistant prior to the end of the shift on which the search occurred.

The facility substantially meets compliance with this provision.

115.315 (d)

New Outlook Academy has implemented both policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breast, buttocks, or genitalia except in exigent circumstances. The Academy Schools PREA Policy III.D. states the following acts are prohibited opposite gender viewing of youth under circumstances when breasts, buttocks or genitalia would normally be exposed (shower, hygiene time, performing bodily functions, and changing clothes).

During interviews with 8 random residents and 8 targeted residents, it was confirmed that male staff do not enter the bathroom areas. Residents are required to do listed functions while in the bathroom areas. Additionally, the interview with 12 random staff also confirmed that there is no opposite gender viewing of residents during showering, hygiene, bodily functions, and changing clothes.

During site review, the auditor observed that female staff was supervising the female residents in the bathroom. Housing on the third floor have bathrooms attached to bedrooms. On the 2nd floor, there is a shared bathroom. The shower

stalls have shower curtains, and the toilets have doors. All residents are required to dress and undress behind the shower curtain. On the second-floor bathroom, it was observed during shower time that female staff had a line of sight to ensure that residents were individually in shower stall or toilet stall.

Cited in the Academy Schools PREA Policy IV.A., staff of the opposite gender must announce their presence when entering a living unit or area where youth change clothes, shower, or perform bodily functions. Based on interviews with random residents, there was 9 out of 12 residents that collaborated that male staff announce themselves prior to entering a living unit. All 12 residents confirmed that no staff views them in full view while showering, completing bodily functions, or changing clothing. All 12 staff attested to the announcement of male staff on living unit, and residents were able to shower, complete bodily functions, and change clothing without being viewed by male staff.

The agency is substantially compliant with this provision.

#### 115.315 (e)

New Outlook Academy has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining a residents genital status. The Academy Schools PREA Policy. III.E states that the following acts are prohibited searching or physically examining a transgender or intersex youth for the sole purpose of determining the youth's genital status. Resident that identified as transgender, stated that they were not searched to determine genital status.

The agency is substantially compliant with this provision.

#### 115.315 (f)

The facility provides CARF training for both new hires and annually. The training includes how to conduct searches at New Outlook Academy. Agency policy, Community Specialists Corporation Search and Seizure Policy takes into consideration the trauma-informed approach to conducting searches. The policy reads as follows:

Students have a right to be protected from unlawful search and seizure. Students are not permitted to be in the possession of drugs, weapons, tobacco products, or other contraband while under direct supervision of the school.

In general, each student will be searched upon return from home pass and after visitation privileges have been concluded. Students may be searched upon return from off-campus activities or medical appointments.

Only a supervisor may authorize a search. Students will be informed of the search. The least intrusive methods of search will be utilized. A student's Personal Safety Plan will be referenced in order to avoid emotional and physical trigger points and to take into account medical history and current condition.

	<p>The policy continues with the limitations of searches, and in cases in which a strip search or a body cavity search must be completed, it would be done at a medical facility under medical supervision.</p> <p>Though the policy does not speak directly to cross-gender pat down searches and searches of transgender and intersex residents in a professional and respectful manner consistent with security needs. The policy does highlight that a student's Personal Safety Plan will be referenced in order to avoid emotional and physical trigger points and to take into account medical history and current conditions.</p> <p>The agency is substantially compliant with this provision.</p> <p>The evidence provided by the facility has shown New Outlook Academy does not conduct cross-gender strip, cross-gender visual body cavity, or cross-gender pat-down searches of residents. The facility produced a policy that requires that searches are documented on a form. Policy and practice enable residents to shower, perform bodily functions, and change clothing without being viewed by the opposite gender except in exigent circumstances. Opposite gender staff members announce their presence on the resident housing units and areas where residents are likely to shower, perform bodily function, or change clothing. Based on policy and interview, New Outlook Academy prohibits the examination of transgender or intersex residents for the purpose of determining the residents' genital status. Review of staff files, there were indications that staff was given training on the Search and Seizure Policy.</p> <p>Based on this analysis, the facility substantially meets compliance with this standard, and no corrective action is needed at this time.</p>

Findings (by Provision):

115.316 (a):

According to the Pre-Audit Questionnaire, the facility has established procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The facility has criteria for admission and readmission.

Within the Academy Schools PREA Policy IV.D, it is cited all education and information shall be made available in formats accessible to all youth (limited English, deaf, visually impaired or otherwise disabled as well as limited reading skills). Additionally, key information shall be continuously and readily available or visible via posters, brochures, or other formats. Receipt of the above education and information shall be documented for each youth.

Operated by The Academy Schools, New Outlook Academy is a private school for juvenile females in need of a residential therapeutic community. As a private facility, it maintains the right to make the final decision regarding all admissions. The vastness of disabilities and language barriers seen in public entities are significantly different at New Outlook Academy due to the selection criteria. The following is the exclusionary and ineligibility criteria:

1. Students who require 24 hour one to one supervision.
2. Students with an active or an extensive history of suicidal ideations
3. Students with an IQ below 70 or Any student with an IQ below 80 will be carefully reviewed to ensure the student's needs can be met by New Outlook Academy
4. Students with a Medically Fragile Condition

During the onsite audit, there were 18 residents receiving special education services, and there was 1 student on a 504 Plan.

The agency head explained that prior to residents being accepted into the facility, they would be interviewed. In some cases, mental health staff would be involved. A determination is made whether the candidate would thrive in the therapeutic community with minimal barriers to success. Due to the selection criteria, disabilities identified above, and limited English proficiency would not be accepted into the facility.

Provided in the PAQ was the agency's PREA training for staff specifically geared to assisting disabled residents. Included in the PREA Accessibility: Making PREA Accessible to Students with Disabilities was strategies to ensure that sexual abuse and sexual harassment information was delivered in a format that would be beneficial to disabled residents.

During site review, the auditor observed the use of PREA posters in both English and Spanish. There was a PREA video with closed caption reviewed during the mock intake process.

The auditor requested a list of residents that were physically disabled or those who received special education services. There were 3 residents identified as having cognitive impairment. All three residents affirmed that they received sexual abuse and sexual harassment information that they were able to understand. Additionally, they stated they received education via video and from staff. Two residents conveyed that the facility would provide someone to help them read, write, speak, or further explain information if needed.

Throughout the facility the auditor identified several PREA related posters both in English and Spanish. The PREA video has close captioning capability. The instruction of the PREA orientation is facilitated by staff with the use of a PREA video.

The facility is substantially compliant with this provision.

115.316 (b):

The agency policy requires all education and information shall be made available in formats accessible to all youth (limited English, deaf, visually impaired or otherwise disabled as well as limited reading skills). A resident would not meet the criteria for admission if they were limited English proficient. The facility does have access to translation services through TransPerfect Remote Interpreting. During informal conversation it was disclosed that the service has been utilized in the case of parents and guardians that were limited English proficient. The posters located in visitation areas were in both English and in Spanish for third party reporters of incidents of sexual abuse or sexual harassment. At the time of the onsite audit, there were no residents identified as limited English proficient.

6. Issue Log

Interviews:

1. Administrative (Humna Resources)
2. PREA coordinator

Findings (by Provision):

115.317(a):

The Academy Schools policy prohibits hiring or promoting anyone who may have contact with residents and prohibits enlisting the services of any contractor who may have contact with residents, who have committed prior acts of sexual abuse or sexual harassment in the community or institutional settings. Provided in the Pre-Audit questionnaire (PAQ) was The Academy Schools policy Procedure No. 103: Basic Requirements for Employment. All prospective employees are subject to the following reviews as and when determined by The Academy:

- State Police Criminal History Clearance;
- Department of Human Services Child Abuse History Clearance;
- Drug Screening;
- Department of Transportation Driver's License Check;
- Physical Examination for Communicable Diseases;
- Reference Checks;
- Federal Bureau of Investigation Criminal History Clearance; and
- Academic/Educational Qualifications/Certifications
- Federally funded healthcare program checks for excluded parties

Upon hire, authorization is obtained to complete human services and criminal background checks on all employees.

Upon receipt of the completed checks, employees are addressed regarding any information found. If the history involves any offense included on the Employee Disclosure Statement or the Arrest/Conviction Report, the employment may be immediately terminated.

Based on the information that was provided in the PAQ and the issue log, The Academy is mandated to operate following the guidelines prescribed by Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release (Pursuant to Act 168 of 2014). According to Act 168, a school entity or an

independent contractor may not hire any applicant for a position in which the employee will have direct contact with children until the school entity has complied with the employment history review process. Under the act, the hiring entity is prohibited from hiring an applicant for a position involving direct contact with children unless the applicant provided the required information on the form and consent.

Act 168 prohibits hiring anyone who may have contact with residents and prohibits enlisting the services of any contractor who may have contact with residents who has engaged in sexual abuse in an institution, convicted of engaging or attempting to engage in sexual activity in the community, and civilly or administratively adjudicated to have engaged in the activities described. Under the Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release, all employees must complete the release.

After the review of 15 randomly selected employee files, the auditor found that all 15 employee files contained the Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release (Pursuant to Act 168 of 2014). Criminal background checks are completed at the federal and state level. Also, the child abuse registry was consulted. To capture information from the child abuse registry, employees complete the Disclosure Statement [Required by Child Protective Services Law, 11 P.S. & 223.1(0)].

According to the PAQ, there were 3 contractors for services where criminal background checks were conducted. Along with the Act 168 disclosure, contractors are required to complete the agency's Independent Contractor Addendum. The document states the contractor agrees to abide by all applicable standards under the Prison Rape Elimination Act.

The human resource staff confirmed the agency completed criminal background checks and considered all pertinent civil or administrative adjudications for all newly hired employees who may have contact with residents. All criminal background checks are completed annually for current employees and promoted employees.

The agency is substantially compliant with this provision.

115.317 (b):

The human resources staff confirmed that prior incidents of sexual harassment would be considered in the hiring, promoting, or contracting for services. Review of 15 random staff files, the auditor determined the agency consistently completes criminal background checks at the federal level every 5 years and state level on an annual basis. Additionally, it completes child registry consults. These checks are to locate any prior history of sexual harassment.

The agency is substantially compliant with this provision.

115.317 (c)

The Academy is mandated to operate following the guidelines prescribed by

Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release (Pursuant to Act 168 of 2014). According to Act 168, a school entity or an independent contractor may not hire any applicant for a position in which the employee will have direct contact with children until the school entity has complied with the employment history review process. Under the act, the hiring entity is prohibited from hiring an applicant for a position involving direct contact with children unless the applicant provided the required information on the form and consent. Under the Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release, all employees of New Outlook Academy must complete the release. The release inquires if individuals have:

Been the subject of an abuse or sexual misconduct investigation by any employer, state licensing agency, law enforcement agency or child protective services agency (unless the investigation resulted in a finding that the allegations were false)?

Been disciplined, discharged, non-renewed, asked to resign from employment, resigned from or otherwise separated from employment while allegations of abuse or sexual misconduct were pending or under investigation or due to adjudication or findings of abuse or sexual misconduct?

Had a license, professional license or certificate suspended, surrendered or revoked while allegations of abuse or sexual misconduct were pending or under investigation or due to an adjudication or findings of abuse or sexual misconduct?

The human resource staff confirmed that new hirers are required to complete the release. The staff is required to complete a continuing affirmative duty to disclose any such misconduct. Within 72 hours of arrest or conviction employees are mandated under state law to complete the Arrest/Conviction Report and Certification Form and submit to the administration of New Outlook Academy. The reportable offenses listed include acts of sexual misconduct and sexual abuse. Lastly, it was disclosed by the human resource staff that the agency would provide upon request a previous employees involvement of substantiated allegations of sexual abuse or sexual harassment.

The agency is substantially compliant with this provision.

115.317 (d)

According to information provided in the PAQ, the agency references the Academy's policy Procedure 103 and the Independent Contractor Addendum to address the completion of criminal background records checks and the child abuse registry consulted before enlisting the services of any contractor who may have contact with residents. Procedure 103 scope addresses employees not contractors. Within the Academy Schools PREA Policy, contractors are defined as any person, not an employee, providing any service for an agreed upon form of compensation. On the other hand, the Independent Contractor Addendum states the contractor agrees that to the extent applicable contractor will comply with regulations promulgated by the Pennsylvania Department of Human Services with respect to criminal background checks, clearances, and physicals. It should be noted the Department of

Human Services requires the child registry consult as one of the clearances. According to the agency, there were 3 contractors that completed required criminal background checks and child registry consults. Further, the human resource staff confirmed the completion of criminal background checks and child registry consults.

The agency is substantially compliant with this provision.

115.317 (e)

Review of Procedure 103, the auditor did not locate language requiring criminal background checks be completed every 5 years, but in the reviewed random employee files, there was evidence of the practice of criminal background checks occurring every 5 years. In some cases, it was more frequent due to the requirements of federally funded healthcare program checks. This practice was further substantiated by the human resources staff.

The agency is substantially compliant with this provision.

115.317 (f)

New Outlook Academy utilizes the Commonwealth of Pennsylvania Sexual Misconduct/Abuse Disclosure Release to inquire about previous misconduct described in 115.317(a). According to PREA coordinator there is no inquiry either during annual evaluation or at promotion pertaining to previous misconduct. The agency does impose upon employees a continuing affirmative duty to disclose any such misconduct via Employee Disclosure Statement [Required by Child Protective Services Law, 11 P.S. & 223.1(0)]. Within 72 hours of an incident, the employee is required to submit to the administration of New Outlook Academy.

The agency is substantially compliant with this provision.

115.317 (g)

Language in the agency's policy cites that material omissions regarding such conduct, or the provision of materially false information, shall be grounds for termination. Procedure 103 states falsifying information or providing misleading or incomplete data will also eliminate an individual from employment within The Academy.

The agency is substantially compliant with this provision.

115.317 (h)

According to the human resource staff, the agency would provide information on substantiated allegations of sexual abuse and sexual harassment involving a former employee upon request from an institutional employer for whom such employee has applied for work.

The agency is substantially compliant with this provision.

The Academy Schools has provided evidence of the prohibiting the hiring,

	<p>promoting, or contracting for services of anyone who has engaged in sexual harassment, sexual misconduct or sexual abuse. Act 168 mandates that the agency must conduct criminal background checks, child abuse registry consults, and contact all institutional employers. Review of employee files provided proof of practice of checks. During the hiring process, employees are required to disclose prior history of sexual misconduct and/or sexual abuse. Through policy the agency imposes upon employees a continuing affirmative duty to disclose any such misconduct.</p> <p>Based on this analysis, the agency is substantially compliant with this standard, and there is no corrective action needed at this time.</p> <p>Recommendation:</p> <p>Create a document to be completed annually inquiring of current employees, contractors, and promoted employees have or have not engaged in the following conduct:</p> <ul style="list-style-type: none"> <li>• Engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution.</li> <li>• Been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or</li> <li>• Been civilly or administratively adjudicated to have engaged in the activity described above.</li> </ul>

Services could be sought from Pittsburgh Action Against Rape (PAAR) at 1-866-363-7273 or 81 S.19th Street, Pittsburgh, PA 15203-1852. This information was also located on a PREA poster located throughout the building.

During an informal conversation with the PREA coordinator, it was stated the agency attempted to develop a memorandum of understanding with PAAR, but they were not successful. The auditor requested evidence of the attempt.

In the PAQ, the facility provided a copy of the license of a qualified staff member who could accompany and provide victim advocacy services.

The interview of the resident that reported sexual abuse stated they were given the opportunity to contact someone prior to being taken for a forensic examination. Also, there was a staff member made available during the examination of the resident's choice. At the time of this onsite audit, there were no interviews of the alleged victim or perpetrator by the Pittsburgh Police Department. After several calls to the Pittsburgh Department Police Department by the auditor, the auditor was able to obtain minimal information regarding the status of the investigation.

All allegations were reported to Childline by New Outlook Academy. Of the 3 allegations of sexual harassment, two were screened out, and 1 was unfounded. Of</p>

the 3 allegations of sexual abuse, they were determined to be unfounded, screened out, and pending investigation.

The auditor requested the last three years of records and was able to confirm that there was 3 allegations of sexual abuse and 3 allegations of sexual harassment reported during the 12 months preceding the submission of the PAQ. There were 2 allegations of sexual abuse that were reported after the submission of the PAQ. In review of the records the auditor was able to confirm the agency's practice with ensuring that allegations of sexual abuse and sexual harassment are investigated.

During an interview, the agency head stated that they do ensure that administrative and criminal investigations are completed. All allegations are made on the Childline. Every employee is a mandatory reporter, and the police department conducts criminal investigations.

The evidence shows that during the past 12 months there were 3 allegations of sexual abuse and 3 allegations of sexual harassment reported during the last twelve months preceding the onsite audit. This information was verified through the supplemental files, interviews, policy, and documentation review. Based upon this analysis, the auditor finds the facility is substantially compliant with this provision and corrective action is not required.

115.322 (b) 1-3:

In the PAQ, the agency reported that they have a policy that requires allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations, including the agency if it conducts its own investigations, unless the allegation does not involve potentially criminal behavior.

The Academy Schools Prisoner Rape Elimination Act (PREA) Policy IV, F., that states all incidents related to PREA, other assaultive behavior and abusive behavior of children, abuse or neglect, wandering & AWOL, elopement, suicide, sentinel events and other incident about which there may be relevance in the judgement of the reporter is to be reported immediately as required by mandated reporters at <http://www.compass.state.pa.us>. Local law enforcement authorities shall be contacted as necessary. The agency provided a memorandum of agreement with the City of Pittsburgh Police that outlines all criminal investigations on incidents that occur at New Outlook Academy will be conducted by the City of Pittsburgh Bureau of Police. The city of Pittsburgh Bureau of Police are trained to conduct investigations surrounding sexual abuse and sexual harassment. The detectives have the legal authority to conduct investigations.

In the PAQ, the agency reported the policy regarding referral of allegations of sexual abuse or sexual harassment for criminal investigation is published on the agency's website or made publicly available via other means. The agency provides that <http://theacademyschools.com/newoutlook-academy/> is publicly available. The auditor reviewed the agency's website and determined that the agency has a third-party reporting link that states the agency has a zero-tolerance policy regarding

sexual abuse and sexual harassment that is publicly available on the agency website. The agency policy was not publicly available.

In the PAQ, the agency reported that they document all referrals of allegations of sexual abuse or sexual harassment for criminal investigation.

The Academy Schools Prisoner Rape Elimination Act (PREA) Policy IV, F, outlines that the Academy requires that an investigation be conducted and documented whenever a violation of the policy is alleged. The auditor reviewed investigation records that confirm the agencies practice on documenting an allegation of sexual abuse or sexual harassment.

During an interview, the State Office Child Youth Family investigator stated that all allegations of sexual abuse and sexual harassment are referred to the Childline.

The auditor was not able to interview a Detective with the City of Pittsburgh Police who was responsible for conducting criminal investigations for allegations of sexual abuse and sexual harassment.

The evidence shows that the agency's policy is not publicly available and does not specifically outline that allegations of sexual abuse and sexual harassment are referred for investigation to an agency with the legal authority to conduct criminal investigations.

Based upon this analysis, the auditor finds the facility is not substantially compliant with this provision and corrective action is required.

115.322 (c):

In the PAQ, if a separate entity is responsible for conducting criminal investigations, such publication shall describe the responsibilities of both the agency and the investigating entity.

In a Memorandum of Agreement: The Academy Schools and City of Pittsburgh of Police Investigations Branch (6/08/15), outlines the City of Pittsburgh Bureau of Police is responsible for conducting criminal investigations. The investigation agency agrees to inform Community Specialist Corporation (CSC) of the dispositional outcome and supply any juvenile petitions and/or adult criminal complaints if charges are filed. Following the completion of any investigation, if the detectives determine that charges are not warranted CSC will be provided with a letter documenting the outcome.

A review of the agency's website under a third-party reporting link identifies the Pittsburgh Police as a reporting agency for sexual abuse and sexual harassment.

Based upon this analysis, the auditor finds the facility is substantially compliant with this provision and corrective action is not required.

Based on review of the information received, the auditor finds the facility not substantially compliant with this standard.

For training for employees, the agency utilizes the PREA Video Refresher; Safeguarding Your Sexual Safety: A PREA Orientation Video, Child Protection Act, Juvenile Detention PREA Basics, and Professional Communication and Boundaries. In both videos Safeguarding Your Safety and PREA Video Refresher, it is clearly stated the facilities zero tolerance for sexual abuse and sexual harassment.

The Academy's Schools PREA Policy states the Academy has a zero-tolerance policy concerning sexual abuse, sexual assault and sexual harassment of Academy youth and is committed to the prevention and elimination of sexual abuse/assault within its facilities through compliance with the Prison Rape Elimination Act (PREA) of 2003. The Academy is committed to the equal opportunity to participate in and benefit from all aspects of the agency's efforts to prevent, detect and respond to sexual abuse, assault, and harassment.

Review of 11 out of 14 staff files, the auditor was able to determine that the agency trains all employees who have contact with residents on how to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures. Within the employee files, there were transcripts that identified if the staff member participated in the Annual CARF training that consists of PREA training or if the staff member took the PREA Refresher training solely.

The agency provided in the PREA-Audit Questionnaire (PAQ) the link provided to

staff to report child abuse <https://www.reportabusepa.pitt.edu/>. Employees are required to sign the Acknowledgement of Understanding of the Substance of the Child Protection Act which reiterates that the staff member understands their obligation to report child abuse. Additionally, the agency provides the same CARF Training for orientation and refresher PREA training. The Academy Schools trains employees on the following topics:

- Zero-tolerance Policy for sexual abuse and sexual harassment
- How to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures
- The right of residents to be free from sexual abuse and sexual harassment

- How to avoid inappropriate relationships with residents.
- How to communicate effectively and professionally including lesbian, gay, bisexual, transgender, intersex, or gender non-conforming residents
- How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

The agency delivers PREA training through several methods that include 2 videos, an acknowledgement form, 2 handouts, and a policy. Curriculum items utilized below:

1. Juvenile Detention PREA Basics -Handout
2. Professional Communication and Boundaries- Handout
3. The Academy Schools PREA Policy
4. Acknowledgement of Understanding of the Substance of the Child Protection Act-Form

6. PREA Video Refresher

During interview with 13 random staff, it was confirmed that they had received PREA training on the items covered in 115.331(a)-1-11.

The auditor reviewed all items and determined the curriculum's material covered all elements listed in provision 115.331(a)-1-11.

The agency is substantially compliant with this provision.

Findings (by Provision):

115.332(a):

Within the Academy Schools PREA Policy IV.C.2, all volunteers and contractors who have contact with youth shall be trained on their responsibilities under this policy. The level and type of training shall be based on the services they provide and the level of contact they have with youth. Regardless of level of contact all volunteers and contractors who have contact with youth shall be notified in writing of the agency's zero tolerance policy and how to report incidents or suspicions of sexual abuse, assault or harassment.

Provided in the Pre-Audit Questionnaire (PAQ), the agency provided a copy of the training material, Juvenile Justice PREA Refresher #1-Juvenile Detention PREA Basics. The PAQ identified 3 volunteers and contractors who had been trained in the agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection, and response. Review of the roster received, there were 2 contractors and volunteers. The auditor was unable to determine if the volunteers or contractors received PREA training due to the lack of documentation of acknowledgement of training.

There were attempts by the auditor to contact the 2 volunteers provided, but the auditor never received a response.

The agency does not substantially meet compliance with this provision.

115.332 (b):

Through the PAQ, the agency provided JJ PREA Refresher#1- Juvenile Detention PREA Basics. The training material does not detail the agency's zero-tolerance policy and how to report incidents of sexual abuse and sexual harassment.

The agency does not substantially meet compliance in this provision.

115.332(c):

Provided in the PAQ, the agency stated that they do not maintain documentation confirming that the volunteers and contractors understand the training they have received.

The agency does not substantially meet compliance in this provision.

The agency has a policy that requires training of contractors and volunteers on the agency's zero-tolerance and reporting of sexual abuse and sexual harassment. The PREA training material does not include information pertaining to the agency's zero-tolerance policy or how to report incidents of sexual abuse and sexual harassment. 1. Mock Intake Process

Findings (by Provision):

115.333(a):

According to the Academy Schools PREA Policy IV.B., upon admission, youth will be provided information, in age-appropriate manner, concerning prevention, intervention, self-protection, reporting of sexual abuse or assault and the agency's zero tolerance policy. Youth will also receive information regarding treatment and counseling for victims of sexual abuse or assault. The above information will be communicated orally and in writing, in a language clearly understood by the youth, during the admission process. Youth will be clearly advised that sexual conduct encompassing all definitions in this policy by adults or other youth in The Academy facilities is prohibited and that youth are to feel comfortable to report any such activity to their counselor, ombudsman, or any staff member in authority.

Reported in the PAQ, there were 112 residents that received information pertaining to the facility's zero-tolerance policy and how to report incidents or suspicions of sexual abuse and sexual harassment.

During the mock intake process with the superintendent, the auditor was verbally provided the information pertaining to the agency's zero tolerance for sexual abuse and sexual harassment. Further, it was stated that the resident would view the video Safeguarding Your Sexual Safety. Upon completion of the resident's orientation to the facility, the resident signs the Student Orientation Checklist that includes a section which is initialed by the resident indicating understanding and receipt of PREA information. Additionally, there was another employee who assisted with the PREA education at intake and PREA risk assessments. It was confirmed that the facility provides information about the agency's zero-tolerance policy and how

to report incidents of sexual abuse and sexual harassment. It was stated the information is delivered by videos and posters located around the facility. All 12 residents affirmed receiving upon admittance to the facility the following PREA education:

- The facility's zero-tolerance policy.
- Your right not to be sexually abused or sexually harassed.
- How to report sexual abuse or sexual harassment.
- Your right not to be punished for reporting sexual abuse or sexual harassment.

Review of the video, Safeguarding Your Sexual Safety, it appears to be age appropriate for the residents at New Outlook Academy. The video has closed caption capability for students that maybe hearing impaired. The PREA posters were adequate font for residents with limited vision. The facility is a private facility which allows for screening of candidates prior to admittance. If there are overt barriers or obstacles to success, the facility does not admit the candidate to the therapeutic community. There are interpretation services available to parents and guardians if there is a need for third party reporting of sexual abuse or sexual harassment. During informal conversation, there have been occasions in which the interpretative services was utilized for parents, but the services were not utilized for cases of sexual abuse or sexual harassment.

The facility is substantially compliant with this provision.

115.333 (b):

The Academy Schools PREA Policy.IV.C.5 states within 10 days of admission to an Academy operated facility all youth shall receive comprehensive, age-appropriate education, either in person or video, about their rights to be free from sexual abuse and harassment, and free from retaliation for reporting allegations of sexual abuse, assault or harassment. Additionally, they shall receive information regarding Academy policies and procedures for responding to incidents of sexual abuse, assault or harassment as well as the various methods of reporting.

The auditor has determined that all PREA education is done at orientation instead of in two sections. Once identified, it was explained that PREA education is to be given at intake which is referred to as PREA orientation. Comprehensive PREA training is to be facilitated within 10 days of intake. Twelve residents confirmed during orientation that they received the following:

- Your right not to be sexually abused or sexually harassed.
- How to report sexual abuse or sexual harassment.
- Your right not to be punished for reporting sexual abuse or sexual harassment.

The intake staff stated the residents receive the information verbally within 72 hours. The auditor concluded that all PREA education and PREA risk assessments

were done at the same time. The residents did not give the auditor any indication of the PREA education being separated into PREA orientation during intake and comprehensive PREA training taken within 10 days of intake.

The facility does not substantially meet compliance in this provision.

115.333(c):

Review of resident files, all residents received PREA education. The problem with the education is that it all occurred during the orientation to the facility instead of being delivered in two parts. PREA orientation training should be at intake and comprehensive PREA training should be within 10 days of intake. Orientation training should include the facility's zero-tolerance policy for sexual abuse and sexual harassment and how to report incidents of sexual abuse and sexual harassment. PREA comprehensive training should include your right not to be sexually abused or sexually harassed, how to report sexual abuse or sexual harassment, your right to be free from retaliation from reporting sexual abuse or sexual harassment, your right not to be punished for reporting sexual abuse or sexual harassment, and victim advocacy contact information.

The facility is private, and there is no transferring of residents from one facility to another so there are no concerns regarding additional training of residents.

The facility meets compliance with this provision.

115.333(d):

Within the Academy Schools PREA Policy.IV.C.5, it is cited all education and information shall be made available in formats accessible to all youth (limited English, deaf, visually impaired or otherwise disabled as well as limited reading skills). Additionally, key information shall be continuously and readily available or visible via posters, brochures, or other formats.

The facility is a private facility that interviews candidates for appropriateness and insure there are no obstacles or barriers for success at the facility. The facility does have access to a language line for limited English proficient and hearing impaired. Additionally, this service can be utilized for parents and guardians. The facility has the necessary office equipment to enlarge fonts of materials. Also, the PREA training videos have closed caption for those residents that may be hearing impaired. During the interview with targeted youth with learning disabilities, it was confirmed that assistance is provided by staff when necessary for understanding materials. Most of the PREA training is provided verbally and by video.

The facility is substantially compliant with this provision.

115.333 (e)

Review of resident files, the auditor located the Student Orientation Checklist. The checklist is found within the New Outlook Intake Packet. Upon completion of the training the residents acknowledge by initial and signature receipt of PREA training.

Due to the manner of delivery of PREA education, the residents only acknowledge receipt of the orientation PREA training and not the comprehensive PREA training.

The facility does not substantially meet compliance in this provision.

115.333 (f)

New Outlook Academy ensures that key information pertaining to PREA is displayed throughout the facility. During the site review, the auditor observed contact information for Childline, the state reporting line for child abuse and neglect. Posters with contact information for the PREA coordinator as well as the facility's zero-tolerance for sexual abuse and sexual harassment. Post onsite audit, the PREA coordinator began developing a pamphlet with all PREA related information to be given during comprehensive training as well as readily available to residents.

The facility substantially meets compliance in this provision.

At the time of admittance, residents are verbally and through video provided information about New Outlook Academy's zero-tolerance policy pertaining to sexual abuse and sexual harassment and how to report sexual abuse and sexual harassment. The facility has been combining the PREA education instead of having PREA orientation and PREA comprehensive training within 10 days. Review of random resident files showed evidence that residents had received PREA training. PREA education is provided verbally and through video, and the facility has provided means for all residents to benefit from PREA education. The auditor located in residents' files evidence of resident participation in PREA education, but for only the orientation due to the delivery method. During the site review, the auditor observed posters ensuring that key information of the agency's PREA policies were continuously and readily available.

Based on this analysis, the facility does not substantially meet compliance, and corrective action is needed.

Corrective Action:

1. Provide comprehensive PREA education within 10 days of intake to the facility. Maintain and document acknowledgment of participation and understanding. Ensure that the training includes:
  - Your right not to be sexually abused or sexually harassed.
  - How to report sexual abuse or sexual harassment.
  - Your right not to be punished or retaliated against for reporting sexual abuse or sexual harassment.
  - Address and phone number to the local rape crisis center.

Recommendation:

1. Develop and distribute PREA pamphlets to utilize during PREA education and

- to make available both continuously and readily to residents.
- 2. Develop PREA video that covers all PREA related information that is in alignment with a therapeutic community (trauma informed).

**Verification of Corrective Action since the onsite PREA audit:**

In response to the corrective action, the facility submitted documentation via OAS on 7/1/2024 and 7/5/2024. The following documents were submitted:

- No Means No Pamphlet-Training Material
- PREA Comprehensive Acknowledgement Form
- Summary of actions taken to comply with PREA Standard 115.333

**Corrective Action Intent:**

The intent of this corrective action was to ensure that New Outlook Academy separated the PREA Education into an initial and comprehensive training for residents. The comprehensive education is provided to residents within 10 days of intake and includes:

- Residents’ right not to be sexually abused or sexually harassed.
- How to report sexual abuse or sexual harassment.
- Residents’ right not to be punished or retaliated against for reporting sexual abuse or sexual harassment.
- The address and phone number to the local rape crisis center.

New Outlook Academy has also developed a brochure for students with this information included and created a form to be maintained in student records acknowledging completion of PREA education.

Based on the information reviewed, the facility is substantially compliant with this standard

Interviews:

1. Staff responsible for risk screening
2. Resident
3. PREA Coordinator

Findings (by Provision):

115.341 (a):

In the PAQ, the agency reported that they have a policy that requires screening upon admission to a facility or transfer to another facility for risk of sexual abuse victimization or sexual abusiveness toward other residents within 72 hours and reassessed periodically throughout their confinement every nine weeks.

Agency relies on The Academy Schools Prisoner Rape Elimination Act (PREA) Policy IV, B, that outlines that it requires youth to be screened for potential vulnerabilities to victimization and propensity to victimize others with sexually aggressive behavior prior to commitment to the Academy.

The facility reported in the PAQ, 110 residents that entered the facility in the past 12 months whose length of stay was 72 hours, or more was screened for risk of sexual victimization and risk of sexually abusing others was completed within 72 hours of admission.

At the time of the onsite audit there were 62 residents admitted to the facility. The auditors reviewed 95 resident PREA screenings and 14 resident files. In review, all residents that were screened at intake were completed within 72 hours of admission to the facility. The PREA risk assessment form provides that the resident is being screened for victimization and abusiveness.

During interviews with residents, 15 out of 18 residents recall being asked questions related to sexual abuse by the doctor or nurse at intake on the first day. During interviews with staff that are responsible for risk screening, when asked do you screen residents within 72 hours of their intake, staff stated yes within 24 hours; when asked how often residents' risk levels are assessed, staff stated risk levels are reassessed every nine weeks.

The evidence shows that the agency requires screening upon admission or transfer and periodic reassessments which was verified through PAQ, policy, resident files, resident interviews, staff interviews.

Based upon this analysis, the facility is substantially compliant with this provision and corrective action is not required.

115.341 (b):

In the PAQ, the facility reported that a risk assessment is conducted using an objective screening instrument.

The auditor reviewed the PREA risk assessment and was able to determine that the

screening instrument was objective. The risk assessment screening instrument assist staff in ascertaining information that provides a resident's overall risk of sexual victimization or risk of abusiveness towards others. This process is conducted on the New Outlook Academy Vulnerability Risk Assessment.

In review of the risk assessments, the PREA risk assessment is comprised of a series of questions and information about the resident and the scores yield an outcome that could be used to inform staff of supervision needs for housing, bed, movement and program placement.

The evidence shows that the agency's risk assessment is conducted using an objective screening instrument which was verified through PAQ, risk assessment, and staff interviews.

Based upon this analysis, the facility is substantially compliant with this provision and corrective action is not required.

115.341 (c):

The auditor was able to review the PREA risk assessment provided by the agency. Upon review, the risk assessment contains all eleven key components of the initial PREA risk screening assessment.

During an interview with staff responsible for conducting risk screening, when asked what the initial risk screening consider, staff indicated questions of gender, sex, size, and acceptance of risk.

The evidence shows that all of the criteria for the PREA risk screening are included in the risk assessment screening instrument, which was verified by the PAQ, risk assessment and staff interviews.

Based upon this analysis, the facility is substantially compliant with this provision and corrective action is not required.

115.341 (d):

During an interview with staff that conduct risk screening, when asked how information is ascertained, staff stated they check collateral information.

The auditors reviewed 95 resident PREA screenings and 14 resident files. In review, all residents that were screened at intake. During interviews with residents, 15 out of 18 residents recall being asked questions related to sexual abuse by the doctor or nurse at intake on the first day.

The evidence shows that information is ascertained from talking with the resident, reviewing file information which is verified through the risk assessment, onsite observation of intake and staff interviews.

Based upon this analysis, the facility is substantially compliant with this provision and corrective action is not required.

	<p>115.341 (e):</p> <p>In the PAQ, the provision requires that an agency implement appropriate controls on the dissemination within the facility of the responses to questions in order to ensure that sensitive information is not exploited to the resident’s detriment by staff or other residents.</p> <p>During an interview with the PREA coordinator, when asked has the agency outlined who should have access to a resident’s risk assessments within the facility in order to protect the resident’s information from exploitation, staff indicated yes maintained in the medical file. Interviews:

1. Resident
2. Superintendent

Site Review Observation:

1. Observation during on-site review of Intake

Findings (by Provision):

115.353 (a):

In the PAQ, the agency reported that they provide residents with access to outside victim advocates for emotional support services related to sexual abuse including making available addresses, telephone numbers including toll free hotline numbers for state, local, or national victim advocacy or rape crisis organizations. The facility provides residents access for reasonable communication to these organizations in as confidential manner as possible. The agency reported they do not provide information for immigrant services because they prohibit admittance of persons for civil immigration purposes.

During the site review, the auditors did observe Pittsburgh Action Against Rape (PARR) victim advocate postings for rape crisis organizations posted in the facility. The posting provided the agency contact phone number and address for writing to access services.

The auditor tested the PAAR telephone number at (866)-363-7273 and was taken through a series of prompts to leave a message. The auditor was able to review the agency's website that provides trauma counseling for children and families.

During interviews, 10 out of 18 residents stated they knew of an agency but could not provide the name of the agency, 1 out of 18 knew about or how to receive the mailing addresses or phone numbers for contacting PARR, a victim advocate or rape crisis organizations, 1 of 18 residents was aware of a toll-free number for the outside victim advocacy agency PARR, 1 of the 18 residents knew about communicating to this organization confidentially.

The evidence shows that the agency has a policy that establishes that residents will be provided access to advocacy support services. As written, it does not outline that residents will be provide access to outside victim advocates for emotional support services related to sexual abuse and make available agency contact information. As written, the policy does not provide any information about confidentiality between residents and outside victim advocates. The auditor did

observe information that would provide residents with the victim advocate for emotional support. Residents interviewed could not provide the auditor information about PAAR. The agency does not provide information for immigrant services because the court places a child in therapeutic community pending adjudication but not for civil immigration purposes.

Based upon this analysis, the facility is not substantially compliant with this provision and corrective action is required.

115.353 (b):

In the PAQ, the facility reported that they inform residents, prior to giving them access to outside support services, the extent to which such communications will be monitored and prior to giving them access to outside support services, the facility would inform residents of the mandatory reporting rules governing privacy, confidentiality, and/or privilege that apply to disclosures of sexual abuse made to outside victim advocates, including any limits to confidentiality under relevant Federal, State, or local law.

During interviews, 1 out of 11 residents reported that they were informed that conversations with outside support services would be monitored, the mandatory reporting rules regarding privacy and confidentiality, disclosures of sexual abuse made to outside victim advocates including any limits to confidentiality.

The evidence shows that not all residents interviewed were informed of the communication monitoring with PAAR or mandatory reporting limits to confidentiality with outside support services.

Based upon this analysis, the facility is not substantially compliant with this provision and corrective action is required.

115.353 (c):

In the PAQ, the facility reported that they maintain memorandum of understanding or other agreements with community service providers that can provide residents with emotional support services related to sexual abuse. The agency reports they are an outpatient mental health provider and have therapist onsite with the ability to provide these services.

The agency provided a copy of the Memorandum of agreement between the UPMC Western Psychiatric Hospital and The Academy. The Memorandum of agreement does not outline that UPMC Western Psychiatric Hospital will provide residents with emotional support services related to sexual abuse.

The evidence shows that the agency and UPMC Western Psychiatric Hospital has entered into a memorandum of agreement on 2/12/22 that does not outline emotional services related to sexual abuse.

Based upon this analysis, the facility is not substantially compliant with this provision and corrective action is required.

115.353 (d):

In the PAQ, the facility reported they provide residents with reasonable and confidential access to their attorneys or other legal representation and reasonable access to parents or legal guardians.

The Child Rights Policy outlines that a child has a right to communicate and visit privately with their attorney and clergy. Policy outlines that the incoming mail from the child's attorney may not be opened or read by staff.

During interviews, the superintendent stated visits are available and the facility provides residents access to their family and attorney virtually through video calls, weekly telephone calls, day and overnight pass.

During interviews with Residents, 17 out of 18 residents knew that they could make a private call to their attorney, all residents knew that they could contact their families.

The evidence shows that agency policy provides that residents can make confidential calls and visits with their attorney and have contact with a parent through phone calls and visits. Facility staff stated that residents are allowed access to their attorney and parents through phone calls, video visits, in person visits, and written correspondence. The residents knew that they were allowed access to contact their attorney privately and visit with their parents through video visits.

Based upon this analysis, the facility is substantially compliant with this provision and no corrective action is required.

Based upon this analysis, the facility is not substantially compliant with this standard and corrective action is required.

Corrective Action:

1. Educate all residents on the services provided by Pittsburgh Action Against Rape (PAAR) victim advocate for emotional support related to sexual abuse, contact information for the agency telephone, mailing address and inform residents of the mandatory reporting and limits to confidentiality.
2. Provide posting or otherwise making victim advocate for emotional support available to residents that would include mailing addresses, phone numbers for rape crisis and victim advocate organizations.
3. Document that all residents have received the education on PAAR.
4. Provide a memorandum of agreement or memorandum of understanding with a community service provider that outlines they provide residents with emotional support services related to sexual abuse.

**Verification of Corrective Action since the onsite PREA audit:**

In response to the corrective action, the facility submitted documentation via OAS on 7/1/2024, 7/5/2024, and 7/17/2024. The following documents were submitted:

	<ul style="list-style-type: none"> <li>• Memorandum of Understanding with Pittsburgh Action Against Rape (PAAR)</li> <li>• No Means No Pamphlet</li> <li>• Email requesting the collaboration between the facility and the local rape crisis center</li> <li>• Signed Acknowledgement Forms by residents of receiving education on the victim advocacy and emotional support services related to sexual abuse.</li> </ul> <p><b>Corrective Action Intent:</b></p> <p>The intent of this corrective action was to ensure that New Outlook Academy entered into a Memorandum of Agreement with a local rape crisis agency, Pittsburgh Action Against Rape (PAAR), to provide residents with emotional support services. In the PAQ, the agency reports that they have a first responder policy for allegations of sexual abuse,

The Academy Schools Prisoner Rape Elimination Act (PREA) Policy IV, E, outlines that upon learning of an allegation that a resident was sexually abused, the first staff member to respond to the report shall be required to separate the alleged victim and abuser, preserve and protect the scene until appropriate steps can be taken to collect evidence, request the alleged victim not take any actions that could destroy physical evidence, including as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, swimming, drinking or eating, take steps to prevent the alleged abuser from destroying physical evidence, such as washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking or eating.

All allegations were reported to Childline by New Outlook Academy. Of the 3 allegations of sexual harassment, two were screened out, and 1 was unfounded. Of the 3 allegations of sexual abuse, they were determined to be unfounded, screened out, and pending investigation.

The Academy School's does not conduct either administrative or criminal sexual abuse or sexual harassment investigations. Administrative investigations are conducted by the Pennsylvania Department of Human Services: Office of Children, Youth & Families, Western Region and/or the Allegheny County Office of Children, Youth & Families. Allegations considered criminal are conducted by the Bureau of Police of Pittsburgh. Investigations are initiated by Childline. Childline is part of a mandated statewide child protective services program designed to accept child abuse referrals and general child well-being concerns and transmit the information quickly to the appropriate investigating agency. It is responsible for receiving verbal and electronic referrals 24 hours a day, seven days a week. According to the supervisor representing Childline, all calls are screened in or out for investigation, the information is submitted electronically to respective agencies to further investigate. Agencies could include the state or county office of children, youth & families and/or the local police department.

Within the Academy Schools PREA Policy, there are several sections that refer to investigations of PREA related incidents. The policy does not specifically mention criminal and administrative investigations, but rather all allegations are to be reported to Childline as well as submitted on the state database. The policy cites that incidents related to PREA, other assaultive and abusive behavior of children, abuse or neglect, wandering & AWOL, elopement, suicide or attempted suicide, sentinel events and other incident about which there may be relevance in the judgment of the reporter, is to be reported immediately, as required by mandated reporters, at <https://www.compass.state.pa.us>

Further in the policy, it states every allegation of threatened or actual sexual abuse or sexual assault constitutes a Reportable Incident and shall be reported according to The Academy Critical Incidents Policy, including entering information onto the HCSIS System which is the Home and Community Services Information System operated by the Department of Human Services.

During the interview with the state representative of OCYF, allegations of sexual abuse and sexual harassment would be investigated within 24 hours. It was stated anonymous or third-party allegations would be called into the Childline, and the allegations would be handled in the same manner as any other investigation.

Within the prior 12 months of the PREA audit, there were 3 incidents of sexual abuse. Two of the allegations occurred after the Pre-Audit Questionnaire (PAQ) was submitted. Review of the 3 incident-based files of resident-on-resident sexual abuse, there is documentation that supports that New Outlook Academy contacted Childline. The status of one incident is still pending with the local police department, and the other was screened out by the police department. There was an allegation of sexual abuse that was determined to be unfounded. There were 3 allegations of sexual harassment two were screened out and there was one that was determined unfounded.

According to the issue log submitted, the facility does not conduct investigations.

The agency is substantially compliant with this provision.

115.371(e):

The agency does not conduct administrative or criminal investigations. All investigations are conducted by either the county or state level offices of children, youth, & families and/or the local police department. 3. 14 Resident Files

Interviews:

1. Superintendent
2. Medical and mental health staff
3. Discipline staff

Onsite Review Observations:

1. Observations during onsite review.

Findings (by Provision):

115.378 (a):

In the PAQ, the agency reported that residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding or criminal finding of guilt that the resident engaged in resident-on-resident sexual abuse. The facility reported in the past 12 months there was no administrative finding or criminal finding of guilt for resident-on-resident sexual abuse that occurred at the facility.

The facility relies on The Academy Schools Prisoner Rape Elimination Act (PREA) Policy IV, J, 3., which outlines residents are subject to disciplinary sanctions pursuant to the agency's disciplinary procedures or following a criminal conviction or delinquency finding. As written, the policy does not specifically mention a formal disciplinary process following an administrative finding or criminal finding of guilt that the resident engaged in resident-on-resident sexual abuse. The agency does not conduct administrative or criminal investigations.

A review of the investigative records for the past three years confirms there was no allegation of resident-on-resident sexual abuse during the 12 months preceding the onsite audit.

sexual abuse results in isolation of a resident, policy requires that residents in isolation have daily access to large-muscle exercise, legally required educational programming, and special education services, shall receive daily visits from medical or mental health care clinician, and have access to other programs and work opportunities.

In the PAQ, the facility reported there were no residents placed in isolation as a disciplinary sanction for resident-on-resident sexual abuse that were denied access to large-muscle exercise, legally required programs, special education services, other programs, or work opportunities.

During an interview with the superintendent, when asked what disciplinary sanctions residents are subject to following an administrative or criminal finding that a resident engaged in resident-on-resident sexual abuse, staff stated they remove residents from the facility, and they use mediation before a final decision is made. During interviews, Mental health and medical staff stated there is no isolation at the facility.

During the onsite review, the auditor went into all areas of the facility. The facility has a designated orientation area. They will use this area if they have to separate but it is not a secured area, Residents can be placed there when admitted for up to three days. A review of resident files did not reveal that residents were placed in isolation for resident-on-resident sexual abuse.

The evidence shows the facility does not isolate residents at the facility. Which was verified through interview, observation, policy and documentation review.

Based upon this analysis, the facility is substantially compliant with this provision and no corrective action is required.

115.378 (c):

The screening will be documented in the intake questionnaire completed at court, or with youth’s caseworker. Youth shall be referred to a mental health therapist when they are identified as a high risk with a history of sexually assaultive behavior and identified as at risk for sexual victimization. The evidence shows that the facility requires that a follow-up meeting is offered to residents that disclose prior victimization and the facility would conduct the follow-up within 3 days of the intake process, which was verified through PAQ, policy, interview, and documentation review.

Based upon this analysis, the facility is substantially compliant with this provision and no corrective action is required.

115.381 (b):

During an interview, Staff that conduct risk screening when asked if the screening indicates that a resident previously perpetuated sexual abuse, do you offer a follow-up meeting, staff reported they would offer a follow up meeting within the 14 days of their initial assessment and perpetrators are normally screened out.

The auditor reviewed 14 resident files and 95 intake documentation and determined that there was not resident that disclosed that they previously perpetuated sexual abuse during screening that would prompt a follow up meeting with mental health staff.

The evidence shows that the facility does not require that a follow-up meeting is offered to residents that disclose they previously perpetuated sexual abuse which was verified through PAQ, interview and documentation review.

Based upon this analysis, the facility is substantially compliant with this provision and no corrective action is required.

detection, response policies, and training including identifying problem areas; taking corrective action on an ongoing bases; and preparing an annual report of its findings from its data review and any corrective actions for the New Outlook Academy.

Provided in the supplemental files, Academy Schools uploaded the CSC 2021 PREA Annual Review 12/2/2021 and CSC 2022 PREA Annual Review 11/30/2022. Involved in the review is t the agency head and the PREA coordinator. The auditor determined the following was reviewed:

- Agency PREA Policy and the need for policy change
- Adequacy of staffing
- Motivating factors of sexual abuse that need to be addressed.
- Physical Barriers
- Monitoring technology deployment
- Staffing plan

During interviews the agency head and PREA coordinator were asked how the agency uses incident-based sexual abuse data to assess and improve sexual abuse prevention, detection, response policies, practices, and training. The agency head responded corrective action was utilized to eliminate the ability for an incident to reoccur as well as adherence to the agency's zero tolerance policy. The PREA coordinator responded that all critical incidents are reviewed. Further, it was affirmed that an annual report is completed from the data review. It was determined that the agency-wide annual report, the Quality Assurance Annual Report 2022 does not include aggregated sexual abuse data, all the definitions related to PREA, or corrective actions pertaining to PREA.

The agency does not substantially meet compliance with this provision.

115.388(b):

The Quality Assurance Annual Report 2022 does include a narrative of the comparisons of the prior year. Specifically, the annual report does not include comparisons of PREA related incidents. Rather the report compares information from all critical incidents across the agency.

In assessing the agency's progress in addressing sexual abuse, there was mention of PREA training along with other trainings to address all critical incidents across the agency.

The agency does not substantially meet compliance with this provision.

115.388(c):

Based on the information obtained from the PAQ the facility provided a website for the auditor to locate the contact information to request a copy of the annual report. Review of the website yielded the New Outlook Academy PREA final report 2021 and the third-party reporting information.

According to the agency head, the annual report is approved before being released for public review.

The agency does not meet compliance in this provision.

115.388(d):

Review of the Community Specialist Corporation: Quality Assurance Annual Report 2022, there were no personal identifiers located in the section pertaining to critical incidents. The information reported in the PAQ corroborates that the agency redacts material from an annual report for publication, the redactions are limited to specific materials where publication would present a clear and specific threat to the safety and security of the facility. According to the PREA coordinator, redactions are made for client identifiers.

The Academy Schools reviews data in order to assess and improve the effectiveness of PREA mandates. The annual report includes a comparison of prior year's data and corrective action plans. Though there was limited information pertaining to PREA related incidents and definitions. The agency makes its annual report available to the public by request. The agency practices redaction prior to the publication of annual data reporting.

Based on the analysis, the agency does not substantially meet the standard, and corrective action is needed at this time.

Corrective Action:

1. The agency shall upload a PREA annual report containing incident-based data and aggregated data of sexual abuse and sexual harassment with comparison to the previous year. The report should detail corrective actions and recommendations for improvement.

**Verification of Corrective Action since the onsite PREA audit:**

In response to the corrective action, the facility submitted documentation via OAS on 7/1/2024 and 7/5/2024. The following documents were submitted:

- PREA Annual Report and Action Plan with agency head's signature Jan-December 2022

This report is publicly available on New Outlook Academy's website through the link below:

Information will be entered into State or National databases, according to law. The policy does not specify that aggregated sexual abuse data from New Outlook Academy be readily available to the public, at least annually, through the website.

The agency indicated on the Pre-Audit Questionnaire that the provision is not applicable. The provision is applicable because the New Outlook Academy is within its direct control of Academy Schools. The auditor further requested the agency's annual report. Provided in the supplemental files was the Community Specialists Corporation Quality Assurance Annual Report and Action Plan for 2022. The auditor was unable to locate aggregated data of sexual abuse and sexual harassment for New Outlook Academy. The document referenced PREA training, but there was no information pertaining to the number of incidences of sexual abuse and sexual harassment, statistics of resident-on-resident allegations, statistics of staff on resident allegations, and the outcomes of allegations. Additionally, this information was not published on the website. There is a reference on the website to how the public can request the report.

The agency is not substantially compliant with this provision.

115.389(d):

According to the PAQ, the agency maintains sexual abuse data collected pursuant to PREA standard 115.387 for at least 10 years after the date of initial collection, unless federal, state, or local law requires otherwise.

The Academy Schools PREA Policy I. states all case records associated with claims of sexual abuse/assault, including incident reports, investigative reports, juvenile information, case disposition, medical and counseling evaluation findings, and recommendations for post-release treatment and/or counseling must be marked "Confidential" and retained.

Site review of the retained documents confirmed that the facility retained all PREA related documentation.

The agency securely retains incident- based and aggregated data. The Academy Schools does not annually aggregate or report sexual abuse data to the agency website. The agency does retain sexual abuse data collected pursuant to PREA standard 115.387 for at least 10 years.

Based on this analysis, the agency does not substantially meet compliance for this standard, and corrective action is needed at this time.

Corrective Action:

1. Update The Academy Schools PREA Policy to include the requirement that aggregated sexual abuse data from New Outlook Academy be made readily available to the public, at least annually, through the website.
2. Within the annual report, the agency shall aggregate sexual abuse data from the New Outlook Academy. The aggregated data shall be available to the public, at least annually, through its website.
3. The agency shall ensure that before making aggregated sexual abuse data publicly available, the agency removes all personal identifiers.

**Verification of Corrective Action since the onsite PREA audit:**
